

Happy Memorial Day Kathy and Ron,

Thank you for everything you do to make the Dixie Chicken Tournament such a success.

Mark Poff and I are very grateful for the exposure you have given to THE SALTWATER ANGLER.

Regarding the Custom Lures we presented at the Awards Brunch, these Lures are handmade by our custom supplier, LEHI Baits Company in Charleston. The following statement is from the Lehi Baits Bio;

" In a fishing industry full of large companies, mass production via overseas outsourcing and modern injection molding, we hand-make our lures one at a time! Our lures are constructed with the fisherman in mind so that they are balanced and run true. From our popular "Squitch", to our resin head "Juggernaut", our commitment to quality is unwavering, and most importantly, our lures catch fish!

We are two brothers working out of a garage creating hand-made, tied, poured, and polished pieces of art in the U.S.A. We are LEHI Baits! "

They are able to produce resin head lures with custom logos cast inside the head. These logos can be Boat Names, Tournament Logos, Names of loved ones or any of many other possibilities.

LEHI Baits has produced custom lures for The Governors Cup Tournament in Charleston, SC.

5 of the 13 Billfish caught, were in the Custom Governors Cup Lure.

The SALTWATER ANGLER in Calabash, NC is pleased to be a supplier of LEHI Baits.

Respectfully,
Carsten Fischer
